

Makey Makey

Introduction

Makey Makey is an invention kit designed to connect everyday objects (such as Play-Doh, kitchen sponges or even bananas) to computer keys. Using a circuit board, alligator clips, and a USB cable, the toy uses closed loop circuit signals to send the computer either a keyboard stroke or mouse click signal. This function allows the Makey Makey to work with any computer program or webpage that accepts keyboard or mouse click inputs.

Recommended age: 8+.

No batteries required.

Conducting items not included (try using everyday from your house such as bananas, kitchen sponges, metal spoons, etc.)

Computer with USB port required - not provided by the library.
